Do you want to transfer to a four-year college or university once you graduate from CPCC?

There is an agreement between the UNC System and the NC Community College System that outlines how course credits transfer between the two systems. The foundational courses that will transfer to all UNC campuses to meet general education requirements are listed as **general education** and **college transfer** classes. (Students must earn a grade of "C" or better and courses will transfer for equivalency credit, up to certain limits.)

Are you a current high school student?

The **Career & College Promise** program gives qualified high school juniors and seniors the chance to get a jump-start on a two-year or four-year degree by earning both high school and college credit while still in high school. Best of all, tuition is free!

Visit cpcc.edu/programs for more details about CPCC's programs of study.
